

TOOLS WITH A MISSION DELEGATION VISITS LORDS MEADE VOCATIONAL COLLEGE

TWAM, is a Christian charity based in the UK, that collects used hand tools, refurbishes them and sends them out to organizations, projects or communities all over the world where these tools are urgently needed.

Lords Meade Vocational College being a pioneer skills development centre in the East African region, the college applied for tools needed in the areas of sawing, carpentry and joinery, brick laying and concrete practice among others. We hope for a better and fruitful future collaboration as we are empowering the youths through skills training.

On the morning of Thursday 7th May 2015, a group of 16 members from Tools With A Mission (TWAM), a Christian charity organization from the United Kingdom visited Tofta Educational Trust and had a tour of Lords Meade Vocational College while on their visit to Uganda touring the projects they give help. The delegation sought to match the college's vocational infrastructure with its effective absorptive capacity for the tools requested.

We are hopeful that a lots of fruit will be born out of this connection.

Bellow are pictures while on tour of the school.
